

Cooling Wrap

STAY COOL.

The Hurtta Cooling Wrap provides effective cooling for your dog, minimizing body heat and providing comfort even in the warmest weather.

Best of all, it's safe for your dog because it mimics our body's own natural cooling process. Simply soak the vest in cold water, squeeze the water out, and then it's ready for cooling. As the cool water evaporates it creates a cooling reaction, helping your dog stay cooler longer.

The vest's cooling inner layer is made from a high-performance microfiber that absorbs moisture several times its weight. The thin microfibers' remarkable absorption power does what conventional fibers can't, creating a longer-lasting cooling effect. The vest's three-dimensional mesh fabric directs airflow, causing moisture to evaporate from the cooling layer, while the lining's technical, moisture-wicking knit feels comfortable even when wet.

Science aside, it provides comfortable, vital cooling that helps keep your dog's heat in check. It also means more outdoor time together, all summer long.

The Cooling Wrap is designed to cover the areas of the dog's body that enhance cooling, namely the chest and its large blood vessels and the lungs. As circulation occurs, the vest's cooling effect spreads throughout the body, eliminating the need for the garment to cover the majority of the dog's body. And with a soft, easily adjustable elastic strap, the Cooling Wrap provides a snug fit that delivers maximum cooling performance.

- Cooling effect produced by water evaporation
- Cooling microfiber layer
- 100% PES 3D mesh knit fabric enhances evaporation
- 100% PES technical moisture-wicking lining
- Fully adjustable chest circumference
- Soft, adjustable elastic strap
- Lightweight buckle attachment
- Bright 3M reflectors
- Fabric certified to be safe, non-toxic and compliant with STANDARD 100 by OEKO-TEX®

Cooling

Maximum cooling effect

Adjustability

Adjustable at least 20% on chest

Visibility

Luminous intensity of reflectors is 400-500 lx/m²

55-65 cm
22-26 inch

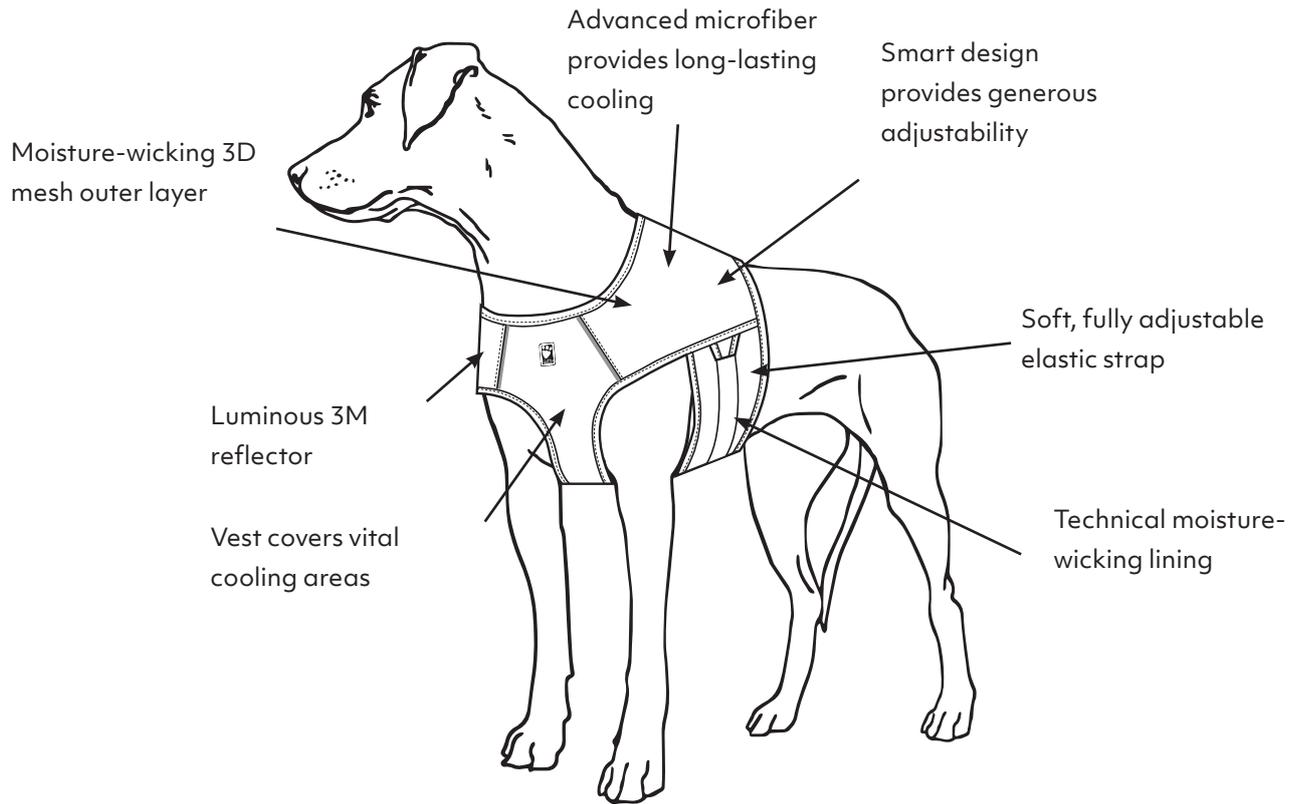

Shell 100% PES
Lining 100% PES

No Softeners

DESIGNED IN FINLAND
Manufactured in China
